A L I C E W A N G

Front End Developer

I'm a Front-End Developer. I love building software that solves real-world problems, add value to society through technology. From the day I wrote my first line of code I knew I was hooked. My passion for programming lead me to master problem solving, ability to learn quickly and always stay on top of new technologies. I am looking for the right opportunity to develop my career.

- Languages

JavaScript (ES5, ES6+), HTML, CSS

- Libraries & Frameworks

Web-pack, React, Bootstrap

- Development Tools

VS Code, Git, GitHub

- ❖ To-do List Web APP:

In this project users can add daily task. It is popup /modal where user can enter task name choose date and time and select category from the drop-down. The Drop-down display only those categories which are present on the categories. It is built by using React JS .

- ❖ Calculator Web APP

A simple calculator in React that handles input changes, user interaction, and complex calculations. This project focuses on some of the most important React concepts, such as re-renders, state management, and breaking down your code into components.

- ❖ Personal Portfolio Website

Build & Deploy React JS Portfolio Website by use the react icons library in my Personal Portfolio project, learned how to use react useState hooks, how to build modern website designs with CSS3, how to use SwiperJS (to create carousels/slides), how to add multiple contact options to the website.

Generation Australia

- ✓ Junior Web Developer Program

FreeCodeCamp

- ✓ Legacy Responsive Web Design Certification
